

## VOICE PICK TRAINING

**EDB** specialise in custom designing courses to suit your workplace, here are some examples of how we tailor to your needs.

Voice Pick training is now available at our Capalaba training facility. This system is used by most of the major warehouses that use up to date technology to increase accuracy and productivity.

Voice training is a short course with small class size to ensure trainees get the hands on experience to use the actual Vocollect technology.

The trainee will learn how to sign in to the Vocollect system, enter their unique voice template, answer the instructions issued by the voice system, how to identify and deal with problems that may arise.

The Vocollect offers numerous advantages over conventional order picking methods. It will eliminate the use of picking slips and dramatically increase accuracy on the pick task.

The system relies on voice instruction through headphones and a microphone.

### The benefits include

- Hands-free, eyes-free picking
- Up to a 35% improvement in picking productivity
- Up to 99.9% picking accuracy
- Reduced operator training time
- Direct interface to most WMS
- Rapid return on investment

By freeing the operators hands to pick the items, it ensures the picker will have more time to concentrate and focus on the accuracy or the pick.

How do I book a place for the voice picking training?

Contact EDB on their website or email

[www.edbtraining.com.au](http://www.edbtraining.com.au)  
[pat@edbtraining.com.au](mailto:pat@edbtraining.com.au)  
[justine@edbtraining.com.au](mailto:justine@edbtraining.com.au)

What do I bring?
